

# LOGICAL-AI BY STAYLOGICAL

## UNIFIED INFRASTRUCTURE INTELLIGENCE

### The Intelligence Engine

Logical-AI transforms your IT fabric and physical environment into a single, intelligent operation. By bridging the gap between data and action, we provide an enterprise-grade "Brain" for your estate - automating compliance, slashing energy waste, and providing real-time operational visibility

### The Investment

We provide a predictable, subscription-based model. Whether you're an educational institution, charity, or corporate estate, you can pick the intelligence modules that matter most

### Standard pricing

£250/month per pillar or £850/month bundle price

### Education pricing

£150/month per pillar or £500/month bundle price

All prices are exclusive of VAT, Deployment and onsite sensor hardware billed separately

### Professional Services

Integration development and site optimisations are included in your monthly fees. Daily consultancy rates apply for bespoke site scoping and major deployments
